October 2025

Dear Dr. Macquiline King,

I am writing to follow up on Mr. Joshua Long's letter dated September 15, 2025 regarding the staffing of Special Education Classroom Assistants (SECAs) at Arthur E. Canty School.

We appreciate the commitment stated in his letter to ensuring students with disabilities receive the services outlined in their Individualized Education Programs (IEPs) and the explanation of the district's monthly allocation process.

However, after a thorough review of the current numbers and time constraints, including a detailed analysis by Principal Jennifer Rath, we must reiterate the critical nature of our staffing shortage. We have confirmed the urgent need for three (3) additional SECA positions to meet the guaranteed service minutes mandated by student IEPs.

We are now ten weeks into the school year and, despite the mandated services, we still do not have the guaranteed positions required to adequately support our students. This ongoing deficit directly impedes our ability to deliver the legally and necessary required special education services to our students. We thought over the last month the positions would have been granted.

While Principal Rath is fully engaged in optimizing the current staffing and scheduling, the simple fact remains that the required student-to-staff ratios and minute-based needs cannot be met with the current allocation. This is a matter of compliance with federal mandates and the commitment to our students' educational rights.

We urge your office to approve and expedite the allocation of these three essential SECA positions immediately. We need a swift resolution to this staffing crisis to ensure all Canty students receive the services they are legally entitled to and deserve.

We look forward to your immediate attention and action on this critical matter.

Sincerely,

Ronald Jacobson

Canty Local School Council

**Subject:** Response to Canty LSC Concerns on SECA Staffing

Dear Members of the Arthur E. Canty Local School Council,

Thank you for sharing your concerns and for your advocacy on behalf of Canty's students. We deeply value the partnership of our school communities in ensuring that students with disabilities receive the services outlined in their Individualized Education Programs (IEPs).

Staffing allocations for Special Education Teachers and Special Education Classroom Assistants (SECAs) are determined based on the IEP service minutes of students enrolled at each school. These allocations are updated regularly—on a monthly basis—to reflect changes in enrollment and student needs. This process helps ensure that resources are distributed fairly across all schools in the district and aligned with actual student requirements.

Principal Rath and the Network Chief have been fully briefed on the allocation process and are well positioned to discuss how staffing and scheduling are organized at Canty to meet student needs. They will be the best partners to review the school's current schedule with you and to address questions about how services are being delivered.

We remain committed to working collaboratively with school leaders and communities to support every student's success. Thank you again for your advocacy and for the care you demonstrate on behalf of Canty's students.

Sincerely,

Josh Long, Chief  
Office for Students with Disabilities

September 9, 2025

Dear Dr. Macquiline King,

I am writing on behalf of the Arthur E. Canty School Local School Council (LSC) and community. We are urgently requesting your assistance with a critical and time-sensitive issue regarding the need for Special Education Classroom Assistants (SECAs) at our school.

Principal Jennifer Rath has been transparent about the staffing needs for our special education students at our LSC meetings, and we were disheartened to learn in the spring of 2025 that we would be losing nine SECAs. Despite Principal Rath's persistent efforts and appeals, which have been denied multiple times, we are now four weeks into the school year and still lack three of the needed SECAs.

Many parents on our council have students with IEPs, making this issue not only important to us, but to the entire Canty community. We have seen significant academic growth in our students with IEPs, and this progress is supported by data from both the state and the district.

As the LSC, we are concerned that the current system is not transparent. The lack of transparency seems to unnecessarily delay the process of providing dedicated and shared SECAs. This process is impeding our ability to meet the needs of our students as mandated by their Individualized Education Programs (IEPs).

We believe that educating children at their level and with their specific needs is Chicago Public Schools' primary business. We respectfully request that a member of your senior leadership team attend our next LSC meeting on **Thursday, September 18, 2025, at 6pm**, in the multipurpose room or a written response. This will allow us to share our concerns directly and collaboratively discuss why the current system is not effectively meeting the needs of our students.

Thank you for your immediate attention to this important matter.

Sincerely,

Ronald Jacobson
